# INTERNATIONAL BUSINESS OPTION

## CAREER INFORMATION

### Employment

The international business option prepares students for positions in organizations engaged in international trade. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms, import/export firms and governmental organizations, and in the marketing and financial management areas of multinational firms.

A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational businesses, however, hire new employees first for domestic assignments to provide them with a thorough knowledge of the firm, its products and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.

### Skills Needed for Career Field

Global competence

Active learning

Complex problem solving

Self-reliance
