INTRODUCTION

The International Business Option for the 2018-19 Academic Year is designed to provide students with an opportunity to gain global business experience through study abroad. The program offers a range of study locations and courses that can be counted towards fulfilling the requirements of the International Business option.

INTERNATIONAL BUSINESS OPTION

CAREER INFORMATION

Employment
The international business option prepares students for positions in organizations engaged in international trade. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms, import/export firms and governmental organizations, and in the marketing and financial management areas of multinational firms.

A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational businesses, however, hire new employees first for domestic assignments to provide them with a thorough knowledge of the firm, its products and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.

Skills Needed for Career Field
Global competence
Active learning
Complex problem solving
Self-reliance
Tolerance for uncertainty
