NOTES

[1] **May substitute CS 161, CS 151, or any other object-oriented programming course for BA 272.**

[2] **ACTG 378 substitutes for BA 370 Pro School core class (but not vice versa).**

[3] **Priority for ACTG 378 fall term is for BIS and AIS students. Do not take this course winter term**.

[4] **MGMT 364 is also available online, usually Fall, Spring, Summer. Check with E-campus to confirm schedule.**

Option may be completed in one year. Two year completion preferred.

OVER

The Accounting Information Systems (AIS) option prepares students for entry-level positions and successful careers in the information management or information systems auditing fields. The program builds on the business, accounting and computer skills classes required of all accounting students, and prepares students specifically to apply the information technologies to accounting, auditing and other business tasks.

The program of study that includes the Accounting Major and these selected courses has been certified by the Information Systems Audit and Control Association (ISACA). Graduates of this program qualify for one year work experience toward the Certified Information Systems Auditor designation.
