

# REMOTE LAB ACCESS

Connect to a computer in Austin Hall to use our academic programs.

1) Open a web browser and navigate to 'cob-remotelab.business.oregonstate.edu'

2) Make sure you have 'ONID' selected, then log in using your ONID username and password

3) Depending on your classes, select the desktop to access: 'AUST-DHE-REM' has software specifically for design students, 'AUST-REMOTE' is accessible by all business students

## 4) You are now connected to a virtual desktop

The screenshot displays a virtual desktop environment within a VMware Horizon window. The desktop background features the Oregon State University College of Business logo and the following text:

Remember to save your work often.  
Files saved to the computer are deleted automatically on logoff.  
Make sure to save all files to a cloud service or your ONID drive.

To the right, a tutorial titled "How to sign out in three clicks:" is shown with three numbered steps:

1. Click the Start button and select the user account.
2. Click the user account icon in the Start menu.
3. Click the "Sign out" option in the account settings menu.

The desktop also shows a taskbar with icons for Recycle Bin, File Explorer, Firefox, Google Chrome, Microsoft Access, and MSSTAT 2019. The system tray at the bottom right indicates the time as 1:12 PM.
