

2-plus-2 Community College Partnership Program

Undergraduate Business Degree Offering

The Oregon State University (OSU) College of Business' 2-plus-2 community college partnership program makes possible a **four-year business education** for Oregon students who may be limited in their abilities to commute or move to other regions for higher education. The program provides the opportunity for students to earn OSU credits in a **fully online setting**.

Program Goals:

- Increase associates and baccalaureate degree completion in Oregon
- Expand availability of general business undergraduate degree in areas where adult learners need increased flexibility in location and times of course offerings

Advantages:

- Allow dual enrollment in community college and OSU
- Financial aid counts enrollment at both institutions for the same term
- Students have increased flexibility in scheduling with access to classes from community college and OSU online classes
- Students eligible for scholarships at both OSU and home community college
- Students have access to OSU College of Business academic advisors and Career Success Center
- Students have access to library and computing resources at OSU

Process:

- Students complete Associate of Arts Oregon Transfer (AAOT) Degree or Associate of Science Oregon Transfer (ASOT) Degree at their home community college
 - May be able to use reverse articulation to complete associates degree
 - AAOT/ASOT completes the general education requirements at OSU
- Students complete bacc core (**34 credits**) and pre-business curriculum (**approximately 52 credits**) at their home community college
- Students complete upper-division bacc core (**6 credits**), upper-division business curriculum (**46 credits**) and general business electives at OSU (**24 credits**) for a total of 76 credits delivered by OSU, depending on actual courses completed
- All other credits may be completed at community college (**approximately 18 elective credits**)
